Attachments: PMOS MD BacklogReport Sep 26 2014.xlsx

Brian:

Here is the information for CAFOs up to September 30, 2014. We will be registering another 30 to 50 or so CAFOs by the time the permit expires on November 30, 2014. Hopefully our renewal permit will kick in on December 1st and we'll start the process all over again. All of those that are registered are individually requesting that the current permit registration to be administratively extended. If they got the paperwork in on time, we will do that.

Folks,

It's approaching the end of the Federal FY and we are in need once again of current info regarding MDE's general permits. You have been very helpful in the past at providing us with updates on the number of facilities covered by these permits. Please review the attached and provide to me by **Tuesday, September 30th**, any updates on permit issue and expiration dates as well as the number of facilities covered (authorizations). Thanks for your help.

Brian
